## THE BEAUTY OF STAINED WOOD WITHOUT THE UPKEEP

Clopay's Ultra-Grain<sup>®</sup> finish delivers the best of both worlds: the realistic look of natural wood with the low maintenance and energy efficiency benefits of insulated steel. But unlike real wood, it's UV-resistant and impervious to moisture, so it won't fade, rot, split, shrink or crack, saving you and the environment material, energy and resources necessary to maintain or replace door components.

Classic™ Steel Premium Model 9130 with Plain Short Windows; Shown in Ultra-Grain® Classic Cherry Finish Option

## FEATURES

- The finished steel surface simulates a real stained door without the hassles of staining and the ongoing maintenance of wood.
- For Gallery® Steel, Bridgeport™ Steel and Classic™ Steel doors, the oak woodgrain pattern runs horizontal along the rails and vertical along the stiles and panels for an authentic, natural look, while on the Canyon Ridge® and Modern Steel™ doors, the woodgrain runs uni-directional for an authentic, architecturally accurate look.
- Available in Walnut, Dark, Cherry, Medium and Slate Finishes that complement entry doors, shutters and other exterior stained wood products.
- The exterior surface texture complements the woodgrain pattern being used. For Gallery® Steel 3-Layer, Bridgeport™ Steel 3-Layer and Classic™ Steel Premium doors, a stucco texture accentuates the bi-directional pattern.
- For Gallery® Steel 1 & 2-Layer, Bridgeport™ Steel 1 & 2-Layer, Canyon Ridge® and Modern Steel™ doors, a woodgrain surface texture helps to make the door appear more true to life.
- Available for select WINDCODE® applications.

Window frames, grilles and inserts are color matched to coordinate with each finish. All window options are available.
